Re: Pretreatment Program  
NPDES No. PA0027111

Dear Mr. Ditty:

I have reviewed the September 19, 2016 letter from your consultant, Ms. Linda French, which responded to my comments on the Authority's annual pretreatment report for calendar year 2015. Based on the explanation provided, I have added the influent results for zinc and effluent results for arsenic in our system. Measure 1 (influent data) is now listed in category 2 for the nickel and zinc exceedances. Measure 2 (effluent data) is now listed in category 1. Note that the revisions resulted in a revision of the overall rating in measure 18 to 84.3. A copy of the revised measures table is enclosed for your use.

If you have any questions regarding this matter, please contact me at 215-814-5793, or by e-mail at [hennie.jasmine@epa.gov](mailto:hennie.jasmine@epa.gov).

Sincerely,

Jasmine Hennie
